Grupa Azoty 2014 financial statements online

Grupa Azoty has always placed a high value on communication with capital market participants, as confirmed by the title of 2014 Equity Market Champion awarded by the Polish Association of Retail Investors, and by the 2014 Golden Website Award from the Polish Association of Listed Companies.

To meet growing stakeholder expectations, last year the Company prepared an online version of its annual report, with content suitable for navigation by Internet users.

This year, in addition to standard data analysis tools, such as a note taking functionality and tables downloadable in the MS Excel format, the online report offers additional interactive features. [Interactive KPI](#) supports all kinds of full-year and half-year data comparisons and the [Journey through 2014](#) helps analyse the effect of key events on the Company stock price.

The report is available in the Polish and English language versions at: sprawozdaniefinansowe.grupaazoty.com
