Grupa Azoty continues to climb in TOP 500 CEE 2022 ranking of leading companies in Central and Eastern Europe

In this year's edition of the ranking, prepared by Coface – the leading business intelligence group in the CEE region – Grupa Azoty has climbed three places to the 37th position. Since 2021, Grupa Azoty has climbed 19 positions.

The TOP 500 CEE ranking is created in collaboration with *Forbes* magazine and showcases a list of the 500 companies and groups from the region with the highest turnover in absolute terms in 2022. For groups of companies, the ranking considers the consolidated data of the group companies, providing insights into the real significance and strength of the region's largest business organisations.

'Grupa Azoty's advancement in the latest ranking affirms its strong position in the CEE region. Despite the challenges in the European fertilizer and chemical industry amid Russia's aggression against Ukraine, Grupa Azoty achieved record results in 2022, marking continuous improvement in its standing among the top 500 companies in Central and Eastern Europe for another year,' **said Tomasz Hinc, President of the Management Board of Grupa Azoty S.A.**
