Grupa Azoty supports ‘Love and Lead by Example’ Korczak Foundation of Gdańsk

Health is among key pillars of Grupa Azoty’s CSR campaigns. This time the company has made a donation of PLN 10 thousand to the ‘Love and Lead by Example’ Korczak Foundation of Gdańsk. The beneficiary will use the funds to purchase a new lifting device for patients under its care.

The Foundation’s mission is to help children residing at the [J. Korczak Home – Regional Care and Therapy Centre in Gdańsk](#), striving to provide the best possible living conditions for the little residents. The centre is home to 45 children from birth to 12 years of age, deprived of parental care and also struggling with some health condition. What these children need most, besides love and attention, are many therapeutic activities, specialist equipment and rehabilitation devices.

The donation has been made to advance one of the objectives behind the Grupa Azoty Group’s donation policy, whereby the Group seeks to actively respond to the needs of foundations, associations, schools, non-profit organisations and individuals in difficult circumstances.
