

16.10.2013

Let's meet at the K 2013!

Hall 7A, Stand D02, Messe Düsseldorf October 16th-23rd 2013

The 19th International Trade Fair for Plastics and Rubber, also known as the K Fair, is being organised this year, from October 16th-23rd in Düsseldorf.

Held once every three years, the K Fair is the largest plastics and rubber industry event in Europe, and also one of the largest in the world. In 2010 it pulled in 3,102 exhibitors from 52 countries, and attracted over 220,000 visitors from 109 countries. This year, a staggering 3,325 companies from 61 countries have confirmed their presence, raising expectations for the 2013 K Fair's attendance figures. The increasing interest in the fair is also a clear sign of a thriving and healthy chemical industry. For the 2013 Fair, three Grupa Azoty companies will be coming together at a joint stand: Grupa Azoty S.A (parent of the Azoty Group of Tarnów), Grupa Azoty ZAK S.A (of Kędzierzyn-Koźle), and Grupa Azoty ATT Polymers GmbH (of Guben, Germany).

The three will be presenting their product range for the plastics industry:

- **Engineering plastics**, such as Tarnamid® (PA6), Tarnoform® (POM), Alphalon™ (PA6), Tarnamid®A (PA66), Tarnoprop (PPC, PPH) and Tarnodur A (PBT),
- **OXO alcohols and plasticisers**, with a special emphasis on Oxoplast® OT, our new plasticiser.

Our stand at the previous edition was a great success, attracting huge interest from the visiting crowds, and this year we're looking to repeat the success. See you there!
