In the Supervisory Board’s assessment, all Board Members were involved in its activities, as confirmed by the high attendance at the Supervisory Board meetings (at the 12 meetings of the Board, as few as 3 absences were recorded and the Board found them justified). 3) **Assessment of the manner of operation of the Supervisory Board, organisation of its meetings, and exercise of the right to delegate Board members to individually perform specific supervisory tasks**

In 2016, the Supervisory Board held 12 traditional meetings and 5 voting procedures using means of remote communication. Thus the frequency of meetings of the Supervisory Board was higher than required under Art. 38.1 of the Company’s Articles of Association (“The
Supervisory Board shall meet at least once every two months”). The Supervisory Board meetings were most often held in Warsaw, where the majority of Board members and persons invited to Board meetings reside. Members of the Supervisory Board received notices of Board meetings and materials covered by the agenda within in due time enabling the members to analyse the documents and prepare to discuss the matters on the agenda. In 2016, the Supervisory Board did not delegate its members to individually perform specific supervisory tasks.

4) Assessment of communication between the Supervisory Board and the Management Board

In the opinion of the Supervisory Board, in the reporting period the communication between the Supervisory Board and the Management Board was correct. This assessment concerns the aspects of cooperation between the two bodies provided for in the Company’s Articles of Association and the Commercial Companies Code, i.e.:

- submission of additional information and materials in accordance with decisions adopted at the Supervisory Board meetings,

The majority of the Supervisory Board members have also passed the examination for candidates for supervisory boards of state-owned companies. Certain members of the Supervisory Board were released from the obligation to take the examination as they met the requirements set forth in the Regulation of the Polish Council of Ministers on training and examinations for candidates to the supervisory boards of companies wholly-owned by the State Treasury of September 7th 2004 (holding a PhD degree in law or economics, being officially registered as a legal counsel, attorney-at-law, qualified auditor, or investment adviser). Therefore, all members of the Supervisory Board meet the requirements of that Regulation.

Given their vast competences, professional experience, and commitment to the work of the Supervisory Board, members of the Supervisory Board supervised the Company’s operations properly and to a sufficient extent.
